

## **Chyanne Chen**

### **Meet the Candidates, Week 4: Which March 5 propositions did you vote for and which did you vote against?**

I voted for Proposition A, B, D and G.

We need affordable housing and investing in police staff will help make the city safer. Strong ethics laws to combat impropriety by officials is key to a strong democracy. I also believe that providing a quality education, particularly in STEAM, is important to prepare our kids for the future.

While I supported parts of C, E, and F, I voted no as I had serious concerns.

Prop C will not create the affordable housing our families need and a potential loss of tax revenue. SFPD made clear current chase policies are effective and did not need to be changed; Prop F didn't address the city's inadequate addiction treatment facilities.
