Meet the candidates, week 4: “What specific actions will you take to address pedestrian safety in District 1?”

Long term pedestrian safety planning is critical, and these measures can't come fast enough. In the immediate short term, we must advocate for:

- Increasing police staffing to ensure we have the resources for traffic enforcement and monitoring to prevent side shows and other dangerous traffic activity
- Enforcing speed limits rigorously with automated speed enforcement tools like speed cameras
- Increasing the visibility of crosswalks through high-visibility striping and advanced stop lines, install pedestrian-activated flashing beacons at key intersections

By prioritizing these swift and effective interventions, we can significantly reduce the risk of severe and fatal injuries on our streets, ensuring the safety and well-being of District 1 residents and visitors.
